LUCA GRILLO

Software Engineer | Senior Back-End Developer

- **Phone:** +39 346 9495177
- **Email:** lucag.8595@gmail.com
- **Location:** 65010, Spoltore (PE), Italy
- **Date of Birth:** 08/05/1995
- **LinkedIn:** Luca Grillo

PROFESSIONAL SUMMARY

Software Engineer with over 7 years of specialized experience in the design, implementation, and testing of complex web applications and back-end architecture. Proven experience in enterprise development using Java (Spring Boot), Python (FastAPI), and Node.js (NestJS), as well as the management and optimization of large-scale relational databases (PostgreSQL, Oracle, MySQL). Accustomed to working in Agile environments, I combine solid code engineering with the use of AI-assisted tools to maximize productivity. I possess strong mentoring skills for junior developers and the ability to provide technical leadership to teams.

TECHNICAL SKILLS

- **Programming Languages:** Java, Python, JavaScript, PHP, Bash Scripting
- **Frameworks & Platforms:** Spring Boot, FastAPI, Node.js, NestJS, AngularJS, Odoo, Salesforce
- **Database:** PostgreSQL, MySQL, Oracle, SQL
- **Cloud & DevOps:** AWS, Docker, Git, Linux
- **Methodologies & Tools:** Agile (Scrum, Kanban), Jira, Gitlab, Github, AI-assisted coding tools (es. GitHub Copilot, Gemini)
- **RPA & E-Commerce:** UiPath, Shopware

PROFESSIONAL EXPERIENCE

Software Engineer | Senior Back-End Developer

Camelot Biomedical Systems | Pescara, Italy July 2020 – Present

- **Took full ownership** of building and evolving scalable software systems used in production, engineering high-performance back-end services using Python **(FastAPI)**, Java **(Spring Boot)** and Node.js **(NestJS)**.
- **Relentlessly simplified** legacy system architectures during major refactoring operations, improving system maintainability and pipeline efficiency.
- Designed, modeled, and optimized complex relational databases (PostgreSQL, MySQL, Oracle) to ensure high availability and correctness for multiple concurrent, large-scale projects.
- Integrated **automated workflows and data manipulation scripts** using Python, reducing processing complexity and accelerating data ingestion pipelines.
- Leveraged modern development toolkits (including **Docker** containers) to build, test, and deploy resilient microservices and monolithic structures.
- Collaborated in agile, talent-dense environments, mentoring junior developers and fostering a culture of transparent communication and shared team success.

Software Engineer

Gunpowder | L'Aquila, Italy April 2019 – June 2020

- Responsible for the end-to-end design, development, and testing of custom applications and complex software components.
- Analyzed technical requirements from **first principles** to eliminate inefficiencies and optimize platform performance.
- Collaborated closely within cross-functional teams, prioritizing the best collective ideas to deliver high-quality, reliable code.

EDUCATION AND TRAINING

Master’s Degree in Computer Science (Software Engineering)

Università degli Studi dell'Aquila | L'Aquila, Italy 2017 – 2019

- **Final Grade:** 110/110 Summa Cum Laude (with Honors)
- **Graduation Thesis:** *Development of a prototype for an autonomous, data-driven production chain*

International Study Experience (Erasmus+ / Mobility Agreement)

Vrije Universiteit Amsterdam / University of Amsterdam | Amsterdam, Netherlands 2018 – 2018

- Completed advanced coursework in Software Engineering abroad, focusing on advanced software architectures and distributed systems.

LANGUAGES

- **Italian:** Native Speaker
- **English:** Proficient / Upper-Intermediate (B2 Level – Full professional capacity for written and spoken technical collaboration)

DATA PROTECTION DISCLAIMER

I hereby authorize the processing of my personal data in accordance with Article 13 of Legislative Decree 196/2003 and Article 13 of the GDPR (EU Regulation 2016/679) for the purpose of personnel research and selection.
